Sir

Installing 4 weather proof fittings in the arches in front of Chelmsford Lodge at Karapur

I have the honour to forward the enclosed estimate amounting to Rs505/-, for the above work, duly countersigned by the Private Secretary to His Highness the Maharaja of Mysore, for favour of returning the same sanctioned at an early date.

A copy of the report accompanying the estimate is also enclosed for information.

I have the honour to be,
Sir
Your most obedient servant

For Chief Electrical Engineer
Government of Mysore.

CSC-VJN.

(6)

Report to accompany the estimate for installing four weather proof fittings in the arches on front of Chelmsford Lodge at Karapur.

It was personally instructed by the Private Secretary to His Highness the Maharaja of Mysore, that suitable lamps be installed at every one of the four flights of steps of the terrace infront of the Viceregal Lodge, by means of underground cable and removing the existing overhead lights. This portion of the work could not be included in the estimate for the general work in Karapur, as the details had not been settled when the major estimate was submitted. It has now definitely been arranged that the Public Works Department will arrange to put up arches at the top of every one of the flight of steps by means of structural iron and this department will make the necessary provision for fixing a suitable light from the centre of the arch. A weather proof fitting with a small globe has been suggested to be used for these arches. These are available in the local markets in Mysore. The estimate takes care of the necessary underground cable and other materials required for the work.

It is proposed to put this work on hand pending sanction to the estimate, as the time before us is very limited and trust this will meet with your approval.

To

The Chief Electrical Engineer
in Mysore.

Sir,

With reference to your letter --- No.3074 dated the 10th instant, I am directed to state that the cost of -- installing four weather proof fittings in the arches in front of the Chelmsford Lodge at Karapur referred to --- therein should be found from savings under other works of the Department -- and that no additional grant can be sanctioned for the purpose. I am also to add that carthire and lumpsum provisions for sundries, labour, contingencies and incidential charges etc., cannot be allowed and that only actual invoice charges supported by vouchers should be claimed.

2. The estimate forwarded with your letter is herewith returned.

I have etc.

For Chief Secretary to Govt.

V.V.4-23-100.

Dear Mr. Matthan,

I have your No.G.8054/V.V.4-23 dated the 18th November 1923 and in reply would inform you that the estimate sent with my No.3074 dated the 10th instant, was prepared in accordance with the instructions received by me personally from the Private Secretary to H.H.The Maharaja of Mysore and has been countersigned by him before sending up to you.

The work has been executed as the time was not sufficient to wait for formal sanction before doing so.

With reference to your remark that Cart-hire and lumpsum provisions for sundries, labour, contingencies, incidental charges, etc. supported by vouchers should be claimed is not clear. I do not understand how the materials could be transported from Mysore to Karapur Camp, unless the item for one cart is allowed to stand in the estimate. Whenever carthire is incurred payment is always made on the basis of vouchers, as well as all other payments, when such are paid directly to outside agencies.

The carthire item is not a lump sum provision as it is based on the actual distance between Mysore and Karapur at the rate of 3 annas a mile, while the other two lump sum items of Rs.10 & Rs.50 respectively are the estimated costs of a good many items, such as tape, solder, paste, bitumen, waste, petrol and so forth which are drawn from the store house and not bought especially for this or any other particular work and the cost of which is so small that it is practically impossible to say, when preparing the estimate, how much of

each item will be used; Also in the case of digging trench, laying cable and connecting up lamps and so forth. Such items are usually prepared in lump sums, as the work is done by our own departmental laborers and it is almost impossible to exactly estimate the amount of labour which will be used under each one of these items and allocate from the nominal rolls that exact amount of labour, and therefore, a provision is usually made on the basis of estimating the quantity of time that will be allocated. In connection with the payments, I would say that it is a standard practice to make all payments on regular vouchers.

The estimates for the other works at Karapur were made as nearly as possible to meet the exact requirements of those works However, I will do what I can to find sufficient savings thereunder to meet the cost of this work also. I might add that the wrought iron arches have been manufactured and erected, by some other department, over the steps leading up to the Chelmsford Lodge. Under the circumstances, I do not see that I had any other option than to have the lights installed therein.

SGF-PRN

Yours sincerely,

To
K.Matthan, Esq., B.A.,
Chief Secretary to Govt.,
Bangalore.
